>>> python.el: native completion setup failed
>>> user = input('Username: ')
Username: bob
>>> import getpass
>>> pw = getpass.getpass('Password: ')
my secret password
wait, why it is printing to screen?
and why does pressing return only insert a new line?
I can't seem to get out of this!
I'm going to press C-c C-c now  C-c C-cTraceback (most recent call last):

[Python Msvcrt For Mac](#)

Python Program to detect key press:Here is the Python Code The sample output is:Screenshot of the output:Output: detect which key is pressed in PythonAfter the small b, in between the single quotes, the pressed key is shown.

1. python msvcrt
2. python msvcrt linux
3. python msvcrt getch not working

There have been significant changes to the visual C runtime with Visual Studio 2015, and this means that there is no longer a single msvcrt DLL, so the way pyreadline loads msvcrt here breaks in Python 3.. The program will work as below:(Oct-11-2016, 11:37 PM) wavic Wrote: First of, check the python version.

python msvcrt

python msvcrt, python msvcrt install, python msvcrt linux, python msvcrt.getch(), python msvcrt getch not working, python msvcrt module, python msvcrt.kbhit(), python msvcrt library, python msvcrt getch arrow keys, python msvcrt getch example
