Allied and Soviet campaigns are the two main campaigns in the game each consisting of twelve missions where the player competes against one or more computer-controlled opponents.. By the way: We have a whole team to protect you and all items sold The story of the game begins in 1972 when the armed forces in the United States had fallen from the sudden massive Soviet invasion of the United States out of control of Soviet aircraft navy vessels amphibian forces and parachutists both on the east coast and on the west coast most of the Soviet earthquakes came through Mexico and started World War II.. The pros are sent to the allied naval base at Pearl Harbor to defend the islands and manage to destroy the invading Soviet forces and to recover Nihau Hawaii from the Soviets.
